Coastal Carolina Wildlife On Orton Pond

In winter, Orton Pond may have several species of ducks plus American Coots and Common Moorhens to offer. Of course, it is near one of my favorite year-round birding destinations...Brunswick Town.

The cypress swamps on the other side of the road may produce the little guys of winter such as Yellow-bellied Sapsuckers; Golden-crowned and Ruby-crowned Kinglets; Brown Creepers; Blue-headed Vireos; and Black-and-white and other warblers.

Even in winter, you are likely to see year-round favorites like Bald Eagles, Ospreys, and Anhinga.
